

## 1. AMENTI-1...

- Guardian Alliance (GA) =3D immense group of beings who reside in a myriad of locations in the Time Matrix. They are a member of the Interdimensional Assoc of Free Worlds (IAFW)
- AIFW Members consist of **Biological** (below 7D), **Etheric** (7D-9D) and **Light** (10D-15D) beings.
- Administrators of IAFW & GA are beings of pure immense, meta-maths consciousness. Guardians of the Cosmic Matrix.
- Cosmic Matrix =3D Energy Matrix + Time Matrix.
- Geomantic Entities (16D and above) reside in the Energy Matrix. These entities viewed from 3D would appear as geometric shapes made of living light.
- The Fall:
  - Earth is in HU-1
  - Tara is in HU-2
  - Gaia is in HU-3
- 560 **MYA** (million years ago) Project Turaneusiam-1 (**T-1**) begins.
- Many ET + Meta-ET's created a master race to serve as guardians of Planet Tara.
- Founders of project T-1 =3D Meta-ET from HU-4 & HU-5 Lyrans HU-3 =3D Seed Race of T-1 Sirian Council HU-2 =3D Directors/Overseers of T-1 Elohim HU-3 =3D race of beings created by Lyrans to oversee Sirian races in HU-2.
- **T-1** was made up of **12-subraces** (genetics from 12 ET races).
- 12-subraces are:
  - Bra-ha-man
  - Dhr-ah-men
  - Atoni
  - Trin-iten
  - Azurtan
  - Celtos
  - Addami
  - Yutarans
  - Cerrasz
  - Nexack-tai
  - Melchizedakz
- Manipulation/Interbreeding by UNRELATED ET races caused major digression/division.
- **T-1** split into two main strains:
  - i) Alanians (Beli-Kudyem)
  - ii) Lumians (Adami-Kudmon)
- **Alanians** sought control over **Luminians** - experimented with power generation thru Tara's core - Lumians asked for assistance from Sirian Council HU-2 and Elohim HU-3.
- Lumians set up "Council of Mu", moved large numbers across ocean to small continent with tiny/simple/unorganized culture - Continent named "**MU**".  
[comment: I wonder if Australia/Aboriginals or UK/stonehenge/grooveware people.??]
- Elohim HU-3 interbred with Lumians (Cerrasz strain) to purify genes - new strain called Ceres/Seres - **Seres** went on to become Priesthood of Mu.
- Alanians =3D Templar Solar Initiates - combines forces with Sirian Anunnaki and refused to listen to Sirian Council.
- Sirian Anunnaki =3D opposed / anti-Sirian Council.

- Group of Alanians not happy with TempSolar defected to Mu.
- Ceres + Lumians interbred with these Alanians - new breed known as Priesthood of Ur.
- Sirian Rebellion War - p/hood of Ur lost battle to TempSolar and **retreated underground**.
- Impending Tara Grid implosion - many evaded to other star systems.
- 550 MYA Alanian deep u/ground power crystals exploded - Tara grd blown apart - Tara detached from morphogenetic grid.
- Tara now missing portions of it's grid - could not continue evolution/ascension to HU-3 to merge with Gaia D7 - frozen in time-tracks until repaired.

## 2. AMENTI-2...

- The fragments of the grid that fell apart, fell in vibration, got sucked thru a black-hole at the centre of Tara's sun and re-emerged in a galaxy HU-1.
- These fragments broke up into 12-pieces, which densified into planets in HU-1.
- 550 MYA Mercury, Venus, Earth, Mars, Maldek (imploded) Jupiter, Saturn, Uranus, Neptune, Pluto, Nibiru (has very long orbit) and the Sun (which was a HU-2 planet that fused with a HU-1 star).
- This event is interwoven with other earth events/history... eg: Fall of Adam, Flood..
- The Fallen souls of Alania became trapped in HU-1 and a rescue mission was required.
- Rescue mission was formulated by the **Ceres**, which the priests of Ur would implement.
- Assistance was provided by Sirians, Pleiadans, Elohim, Lyran, Lumians, Alanians, Ceres.
- This consortium was known as the **Covenant of Palaidor**, working thru the HU-5 Breneau Rishi and further assistance by the Metagalactic core/gestalt known as the RA Confederacy.
- Of the 12 RA sub-groups, only 4 approved the rescue mission (Azurites, Aton-A, Amonites, Brighidelt).
- The Brigi are currently incarnating into earth as members of the ascended master family of Vairigi.
- Several other sub-groups also assisting are Azar-Azara of HU-2 ET race known as the Zhar Confederacy.
- The Ur-Tarranates time travelled to Earth HU-1 after the fall of Tara and with help of the Sirian Council... transmuted into pure energy becoming one-consciousness, serving as the Morph field for the 12-DNA T-1 race prototype on Earth.
- The Morph-field of consciousness is known as **the Sphere of Amenti**.
- Amenti =3D part of Tara's core connected to portals on MU.... placed on Earth would link back to Tara's pre-fall time-cycles.
- When grids blow apart they lose portions of history stored in genetic cellular memory. With out this the planet can not evolve/ascend into the next HU.
- 250-550 MYA many species where seeded by HU-1 ET's (plants, animals, insects).... Also some ether beings spent time here....
- There were wars were fought by races who did not want this rescue mission to succeed.
- Once Earth was secured the Ur-Tarranates of the Sphere of Amenti began birthing on Earth.
- This was known as the **T-2 experiment**... the 12-tribe seeding.
- 5-Cloister races emerged known as **the Palaidorians**. These races were less dense and did not possess gender, their bodies contained 8-DNA strands (active). They were the guardians for DNA evolution.

- The five Cloister Races were:
  - Ur-Antrians (brown skin, DNA Strand-2)
  - Breanoua (Red skin, DNA#3)
  - Hibiru (White skin, DNA#4)
  - Melchizedeks (Yellow skin, DNA#5)
  - Yunaseti (Black, DNA#6)
- These cloistered races left no remains on earth, as they were here during an Anti-particle universe cycle.. (pls see notes in *Sleeping Abductees*)
- Sphere of Amenti =3D Hall of Records (Time/Portal)
- Each planet in our solar system holds a part of Tara's HU-2 Morphogenetic field.
- Tara HU-2 can not ascend to become Gaia HU-3 unless all these planets in our HU-1 solar system complete the full manifestation of these morph-fields.
- The pattern of the Morph-field appears as a standing wave of blue colour with a pale shade of green.
  - This Blue flame is earth's portion of Tara (**Staff of Amenti**)
  - Earth's own flame is Orange-Gold.
  - Tara's own flame is Blue-Green (known as the Gates of Ivory, Pearly gates)
  - Gaia's own flame is Violet-Gold
  - Metagalactic Core's own flame White-Gold
- 1st Seeding of the 3<sup>rd</sup> World (25 MYA to 5.5 MYA)
- 5x C/Races entered earth in different locations. Each race physically created 6M+6F adult humans who bred to seed the earth population at the time. (all up 60 humans)
  - 1<sup>st</sup> emerged was the 3<sup>rd</sup> root race, Lumanians.
  - Lumanians =3D Brown =3D Ur-Antrians =3D 15MYA =3D DNA#2
  - 2<sup>nd</sup> emerged was the 4<sup>th</sup> root race, Alanians.
  - Alanians =3D Red =3D Breanoua =3D 9MYA =3D DNA#3.
- 5.5MYA interbreeding with HU-1 ET' caused genetic digression, thus loss of immortality and not able to transmute/ascend.
- Members of the Sirian-Anunnaki HU-2 and other ET + Meta-ET's wanted to stop/halt earth's evolution (T2/12-tribe experiment) due to the fact they did not want the digressive elements of humans returning/ascending to Tara.
- Other's had ulterior reasons, as they wanted earth for themselves.
- Basically all hell broke lose - electric wars of pure energy fought in local galaxy and atmosphere.
- Those humans remaining ascended to **Tara**, and those with the digressive gene could not/perished.
- Earth was almost a goner until HU-5 Breneau intervened.
- After the Electric wars, the 3<sup>rd</sup>+4<sup>th</sup> root races had to be re-seeded but this time carrying the seal of amenti within their genes.
- This seal of Amenti stopped humans with digressed gene form accessing the Sphere/Hall of Amenti.
- The 6<sup>th</sup> sub-frequency-tone of Dimension-1 was removed from DNA strand-1
- Thus stopping humans incarnates from plugging/accessing into the 7<sup>th</sup> DNA strand. thus could not assemble all strands in order to ascend/transmute (pass the Blue-Flame).
- When the body reached full gene capacity it would diminish/die and go thru a cycle of re-incarnation. (7<sup>th</sup> strand DNA blue-flame allowed unlimited energy-renewal of the body).

- The idea was to re-birth 3-times, once thru the root races which were RR3 + RR4... and then have to wait for Root race 5 to be seeded/emerge before one could incarnate as a RR5 human to collect DNA strands 5-6-7 (strand-7 released/shed the seal of amenti) in order to ascend/access-codes to HU-2 [sound like monopoly... go to bank, collect \$200, bypass jail ;o]]
- Uh.. Oh.. opps.. was discovered due to electric wars a more serious problem had occurred..

### 3. AMENTI-3...

- 5 MYA shift in earth grid occurred causing a quick freeze. After this shift the earth vibration dropped and could no longer safely hold the sphere of amenti..
- In order to avoid destruction, the Elohim HU-3 removed the **S.O.A** (Sphere of Amenti) to a safe place in 4D.
- Due to this Root Races 3 and 4 could no longer assemble their 4<sup>th</sup> DNA strand.
- The burden/responsibility for assimilating the fragments of RR3 and 4 was put upon Root Race-5 (Aeiran/Aryan) of the Hibiru cloister.
- Human evolution was stunted 5.5 MYA until Sirius-B came along to the party.
- An artificial portal bridge was constructed between the core of **Sirius-B**, the **S.O.A.** in D4 and **Earth's core** in D2.
- Some souls of the 2<sup>nd</sup> seeding merged with Sirius-B and hybrid strain of consciousness was created called the Kantarians.
- This 2<sup>nd</sup> seeding portal-bridge was known as the Hall of Amorea in the 3<sup>rd</sup> seeding.
- During **Atlantis** it was known as the 3<sup>rd</sup> Eye of Horus.
- 4 MYA human hybrids who found exile in the HU-1 pleadian star system were known as the Europherites. They interbred with the Kantarians to be known as the **Dagos** (dark brown skin).
  - 4 MYA Dagos brought to earth to re-seed.
  - 3.7 MYA Ur-Antrian cloister3 (DNA1-2 + 7-12)
  - 3 MYA Lumarians Root Race3 (DNA1-2)
  - 3 MYA Breanoua cloister4 (DNA1-2-3 + 7-12)
  - 2.5 MYA Alanians RR4 (DNA1-2-3)
  - 1.5 MYA Hibiru cloister5 (DNA1-2-3-4 + 7-12)
  - 1.27 MYA Ayrians RR5 (DNA1-2-3-4)
  - 65000 YA Melchizedeks Cloister6 (DNA1-2-3-4-5 + 7-12)
  - Current Muvarians RR6 (DNA1-2-3-4-5)
  - Future Yunaseti Cloister7 (Full 12-strand)
  - Future+ Euanjhechi (Paradisians) DNA1-5 + code6-12)
- Melchizedeks are free from the DNA filters/Seals of Amenti+Palaidor. They established the Essene brotherhood and priesthood of Melchizedeks.
- 10,000 YA Hibiru and Melchi Cloisters mixed to become known as the **Hebrew Race**.
- They retreated underground after fall of Atlantis, known as the speakers of the blue flame. (guardians)....also P/Hood of Ur/Tara.
- These underground sub-lands are known as Ar-Ratoth / Agratath / Agartha.
- More seals/filters known as the Templat-Axoim-Seal were placed on **DNA** due to stuffing about by a breakaway faction of the Melchizedek p/hood. [..how many times can you seal a jar???
- This Templar/Axoim seal still affects the majority of present day population. It is also known as the "666" Seal [ number of man, placed on each forehead... mmm... as i figured... Revelations maybe past-tense not future].... this was originally applied to HU-2 Sirian-Anunnaki who assisted the building of the great pyramid (encoded with 666).

- Interbreeding with the Melchizedeks Cloister and Sirian-Anunnaki created [the Nephilim](#) and **Anu Human race**.
- Administration of the Templar-Axion Seal was done by the [Arcturians](#)..
- Soul essence must now pass thru:
  - i. Plaeidian
  - ii. Arcturus
  - iii. Andromeda
  - iv. Tara (rebirth)
  - v. Earth (return until merger with Tara)
- The templar-axiom seal also known as the soul harvest/judgment day...[interesting another [RA channelled material](#) discusses this at length /[David Wilcock](#) also does a summary of this material]
- Earth Tara grid to merge in 3-4 generations after the year 2012.
  - 1<sup>st</sup> wave ascension 2012-2072
  - 2<sup>nd</sup> wave scheduled for AD.4230
- Humans who can assemble 4<sup>th</sup> DNA can ascend in 1<sup>st</sup> wave ([escape re-incarnation cycle](#)).
- 7<sup>th</sup> R/Race and 7<sup>th</sup> Cloister will emerge after Tara/Earth grids merge... this is known as the 5<sup>th</sup> world of the native american indians.
- At present 6<sup>th</sup> r/race is just beginning the 3<sup>rd</sup> wave
- The 7<sup>th</sup> race cycle will assemble DNA #6.
- 7<sup>th</sup> R/race do not die, nor physically breed... and can travel time..
- Many ET visitors are 7<sup>th</sup> race relative (from Tara/future)

#### 4. AMENTI-4...

- The Elohim HU-3 favoured the 5<sup>th</sup> root race Ayrian / Hibiru race-cloister who were not contaminated by mixed breeding. It was hoped that thru them they could get earth back on track in order to re-enter the [sphere of Amenti](#) in earth's core.
- Approx 1 MYA the **Drakon** from HU-2 Orion system came to earth and tampered with gene codes.
- Drakon =3D dragon/lizard like, sentient, aggressive, expert scientists, had poor relations with HU-1 galactic council..
- The [Drakon](#) created a hybrid called "**Dracos**" (human body but Drakon facial features)
- Due to these superior Dracos and their havoc breeding program, many cultures retreated underground... by product from their breeding was **Phalzants** ([Chupacabras](#)) were combined animal strains with Drakon/Earth strains.
- [Phalzants](#) and [Drakons](#) currently are assisting the [Zeta](#) with detrimental earthly agendas.
- Because the **Dracos** have human genes they believe that they have rights to earth as much as we do.
- The Drakon became a menace, so with some help with [Sirian-Anunnaki](#) was decided to destroy Drakon underground habitats. This plan backfired causing crustal explosion, flooding , axis tilt etc..
- Most Drakon left earth or destroyed.
- Most humans retreated underground.
- Due to human gene digression, other ET races used this opportunity to experiment. From this came primitive forms of [man/apes](#). (Human lineage did not emerge from these)

- Atlanian 2<sup>nd</sup>-seeding (evolved on **Mars**) were influenced by Sirian-Anunnaki HU-2. The Anunnaki added sexist slants - women were sub-servants / breeding slaves. They also made out that they were our *gods*.
- The **Nephilim** (950,000YA) were the children of the Anunnaki thru interbreeding. They were advanced/superior and dominated humans.
- The Lamanian culture were not affected/infiltrated and had retreated underground.
- The Elohim and Ra confederacy in order to put things back online/path disabled certain gene codes (**junk DNA**).
- The HU-2 Seres/Ceres interbred with members of the Atlanian & Ayrian races to created a superior human race known as the Serres/Egyptians.
- **Egyptians** carry the most diversified genetic codes.
- 900,000 YA the elohim & sirian council re-entered the sphere of amenti into earth's core.
- The Anunnaki were upset at the elohim for interfering with their **nephilim** race/children and decided to attempt to destroy the sphere of amenti and utilize humans as slaves to harvest gold.
- War (1000 years) broke out between the **Nephilim** vs Serres (local) and Elohim vs Anunnaki (inter-galactic).
- Earth races sought exile on other planets and most **nephilim** relocated to Sirius-A and then Nibiru.
- Again the **Breneau** of HU-5 intervened and negotiated a treaty between the warring factions.
- "Treaty of El-Annu" agreed that **the nephilim** would not return to earth and that another Anunnaki-Human hybrid would be allowed to be created called "Annu".
- This treaty also created many divisions with-in the Anunnaki
  - on one side we have the **Law of One followers** - Sirian-Blue (Sirius-A) and the Kantarians (Sirius-B) and the Sirian Council HU-2...
  - on the other side we have the Anunnaki resistance, the Dracos (Sirius-A) and the Drakon who were hell bent on destroying the **Sphere of Amenti**.
- In order to regulate things a little the RA confederacy & Sirian Council applied the "666" Templar-Axion Seal on the Dracos as well as the Anunnaki resistance meaning neither could successfully interbreed with any other species other than their own.
- So now the Anunnaki-resistance's only hope of keeping their foot in the door and getting back into earth was thru the new Anunnaki hybrid program "**children of Annu**" which the Treaty allowed the Anunnaki.

## 5. AMENTI-5...

- 849,000 YA the sphere of amenti was removed from earth's core and placed in a secure location to be protected by Arcturus and Pleiadian. The Sphere was hidden in the Andromeda star system.
- Andromedans did not agree to military involvement as they did not support the Treaty of El-Annu.
- A portal bridge between earth D-2 core and the **S.O.A** (Sphere of Amenti) in the Andromeda galaxy was constructed to allow/assist re-seeding on earth.
- This portal bridge was called the **Arch of the Covenat of Palaidor** also known as the arc of the covenant.
- A 5-D seal was placed on the arc-cov, making it a one-way door, where souls could descend to earth but could not return, unless they had the 5-D gene-coding. (known as the shield of the Arc).

- The 6<sup>th</sup> R/race **Muvarians** [sounds like [Gardner's Merovingian Kings](#)] and their Melchizedek cloister held the 5-D gene code, meaning also that the Annu hybrids also held the key as they were to be seeded thru the Melchizedek cloister.
- Those who held the key/shield became guardians.
- The shield would be released once 8% of the living population had assembled the 5<sup>th</sup> DNA strand.
- The earth-grid frequency would rise, igniting/activating the S.of.A to release/descend back to earth's core taking approx 2000yrs.
- Once this had occurred the blue flame of amenti would be released (approx 12yr process) to merge with the core/S.of.A. (Sphere of Amenti)
- Once this was achieved the ascension portals to Tara would be opened.
- Upon returning to earth for the 3<sup>rd</sup> seeding was discovered some survivors from 2<sup>nd</sup> seeding (Lamanians and Ur-Antrian).
- The Serres-Egyptians interbred with the Lamanians. The new race known as the **Urtites** (800,000 YA) known as P/Hood of Ur.
- All five cloister races birthed their line of race thru the Urtites (750,000 - 75,000 YA)
  - 75000 YA Ur-Antrian Cloister
  - 73000 YA Lamanian/Lemurian - Pacific Ocean and Andes mountains.
  - 72000 YA Breanoua Cloister
  - 70000 YA Atlantians - Atlantic ocean & egypt.
  - 68000 YA Hibiru Cloister
  - 65000 YA Aryans - Black Sea & Carpathian mountains.
- The **Annu** were seeded into the Atlantian root-race. They kept in touch with their Sirian-Anunnaki fore-fathers.  
[note: in general up to now, the Anunnaki were with the law of one except for a small faction known as the Anunnaki resistance/rebellion who were the trouble makers]
- Technological gifts were given/allowed by other Stellar races eg. crystalline power generators.
- Arc of Covenant was located within the atlantian landmass.
- 55000 YA the Anunnaki resistance infiltrated, things digressed, Atlantis nearly ended. With the help of the Drakons and Dracos, the **Annu** were infiltrated, interbreeding between the two occurred.
- Because the **Anunnaki resistance** carried the Templar-Axion seal, this was passed/mixed in with the Annu genes.
- 52000 YA the Templar-Annu (resistance infiltrated) allowed the forbidden Dracos to return to earth to assist with infiltration of the Lemurian continent of Muarivhi in exchange for a permanent home-base on earth.
- As previously noted, the crystal generators were used by humans in an attempt to rid the underground Dracos, but plan backfired.
- The Stability of the Arc of the Covenant was breached and was moved to Egypt (51750 YA). The Serres-Egyptians would now share guardianship.
- In order to show force/strength scare of the Anunnaki resistance, the **Sirian-Anunnaki council** did a show of force thingy, by mounting an outpost on **Mars** and by visiting egypt/atantis en-mass.
- The Sirian Council built pyramid structures all over earth **directly over portal regions!!!!**
- The Pyramid structure was Sirian Anunnaki trademark. The Giza pyramid (48000 YA) was built over the Arc of the Covenant to protect it from rebels.
- The Sphinx (body of a Leonine and head of Anunnaki Warrior) was built over an inner earth entrance/portal/library/storage as a symbol tribute to the Leonines. It

also served to protect/cover the 5-D UHF energy devices (anti-gravity) known as the "Ankh" which were used to help build the pyramids.

- These **Ankh**'s became to be known as the Arc of the Covenant and the true identity of the Arc as a portal-bridge was lost.
- Leonine were a race of beings from HU-2, early founders of the Anunnaki.  
[note: Sphinx was built first then the Great Pyramid]
- The great Pyramid was re-constructed several times (12550 and 11000YA)
- It served also as interstellar teleportation centre. [Alan Alford, states that the pyramid was a power generator as well as a radar-control-like tower guiding in the craft. The landing port/runaway was actually Sinai Desert].
- The pyramid allowed the Sirian council quick entry/intervention should the A.C come under Anunnaki rebel attack/control.
- The spot on which the Pyramid was built and the **A.C** (Arc of the Covenant) placed was known as Earth's heart chakra.
- The pyramid was lined up with Sirius-B but a after some grid-shifts/tilt was re-position to line up with Alcyone/Pleiades. Due to this shift, visitation by the Sirian council became harder to accomplish and less frequent.
- The Anunnaki rebels tried to use the Atlantis crystal generator to teardown the electromagnetic barriers securing the inner earth portals and in the processed failed destroying Atlantis which broke up into 3-pieces. This caused the flooding and axis tilt.
- From this the rebels lost their stronghold of Atlantis. Angered by this they launched an aggressive attack on **the Mars Sirian outpost** destroying it. The Sirian Council Allies drove the rebel fleet from earth to the distant planet of **Nibiru**, but were too late as the pyramid and sphinx and other culture centres were destroyed.
- 9500 YA the Templar-Annu regained control of Atlantis, whilst the Sirian-Council-Anunakki, the Annu-Melchizedeks and Serres-Egyptians re-built Egypt.

## 6. AMENTI-6...

- [Note: whilst reading section-6 consider the following by notes from Laurence Gardner
  - Akhenaton =3D Moses
  - Aaron =3D Smenkhkare =3D son of Aye
  - Moses =3D Akhenaten
  - Nefertiti =3D wife of Moses
  - Amenhotep-III =3D father of Moses
  - Tiye (Queen) =3D mother of Moses
  - Tey =3D mother of Smenkhkare
  - Aye =3D father of Smenkhkare
  - Yusuf-Yuya the Vizier =3D grandfather of Smenkhkare
  - Aaron (Smenkhkare) =3D father of Princess Scota]
- After 28000 BC. the Atlantis explosion reduced Atlantis to 3 small islands. (Bermuda Islands)
- Visitors used the Egypt-Pyramid-Alcyone Spiral/Portal to access earth.
- Anunnaki Resistance & Drakon not permitted to use portals.
- 9558 BC the rebels attempted to destroy the Sphere of Amenti (S.O.A) using the Atlantis crystal core power generators.
- The S.O.A reflected the power **EM pulse beam** back onto the crystal generator. This caused major chain-reaction explosions.
- Sirian Council found out too late. The council order Sirian blue race to remove all crystal core generators from earth.

- Further security seals placed on the Arc of the Covenant. Prior sealing two rods-cylinder-staff were charged to allow/assist Egyptians to enter inner earth portals.
- The EM pulse beam activated the S.O.A, but earth was not at correct frequency to accept the SOA and thus the grid would explode.
- 9540 BC following the deluge, the RA confederacy + Elohim + others altered earth's morph-field creating a natural frequency fence which did not allow 4D to plug into 3D.
- Also all interstellar portals were de-activated. All ET's were put on a hands off, non-interference, and earth was quarantined.
- The frequency fence allowed the elohim to favour their own kind (Hibiru Cloister race and Serres-Egyptian).
- 3<sup>rd</sup> DNA strand manifested without 7-12 base-tones resulting in genetic mutation. These **gaps in DNA** caused memory loss between conscious awareness and astral awareness causing distortion/loss in dream re-call.
- The ego (5 senses) and the higher-self (10-12 overtone frequency) were now split/separated.
- We lost all direct assistance/relationship with multi-dimensional galactic communities.
- Conscious recall of higher dimensions requires 4<sup>th</sup> DNA strand.  
[there is too much DNA info here to summarize... get the book]
- Egyptian-Serres + Annu-Melchizedek + hebrew peoples were now guardians of the arc and had custody of the rods/staff and their connection to inner earth portals remained.
- Somewhere amongst this saga the **Zephilium (Zeta Reticuli)** genetically mixed with the Templar-Annu in the hope of reversing their mutating genes and creating a hybrid for themselves to embody that was more suitable to earth.
- 12-DNA strand package is the highest genetic imprint in a HU-1 and HU-2 and when fully activated can embody a 12-D oversoul.
- Currently all races have been inhered it on the S.O.A.
- 2409BC - the SOA was released from D4 by the Elohim.
- 1398BC - an avatar from HU-2 (pure Anunnaki - sirian council) carrying 9-D frequencies was born thru Annu-Melchizedek in Thebes Egypt.
- His name was **Amenophis-IV** (changed his name to Akhenaton in 1366BC. His father was Amenophis-III (serres-egyptian) and mother was Queen Tiye (Annu-Melchizedek)
- 1374BC - Halls of Amenti were opened.
- At age 28 he was taken to inner earth for and trained for ascension.
- 1367BC - relocated to **Tel-El-Amarna**. At the time Giza pyramid was still under control of Amonist priests of serres-egyptian lineage.
- Along the way Akhenaton became a little twisted in his ways and showed favoritism only towards the Annu peoples and would not allow any other race to ascend thru halls of amenti.
- An alternative plan was devised without Akhenaton's knowledge by Priests of Ur and Elohim to allow other (non-Annu) races to ascend.
- This plan was carried out by his 200 Blue-Flame Melchizedek support staff.
- Keepers of the flame was headed by:
  - Primary Flame Holder = 3D Phaellopea High Priestess
  - Inner Circle Flame keepers = 3D General Haremhab (army general), Sabatoth (physician and half-brother) and Ankhi (Kiya) his 4<sup>th</sup> wife.
- 1362BC - **Akhenaton** found out what was going on, went crazy, and sentenced Ankhi and Sabatoth to death but they escaped to Giza. Haremhab was not

found out but this was short lived when Akhenaton found him and some other blueflame keepers in the portals.

- Basically a little scuffle broke out, Akhenaton tried to close the halls of amenti, his staff/rod beam was redirected by a flame holder in which a part of the S.O.A. collapsed allowing chaotic D-1 and D-2 souls (underworld) to be released.
- The elohim intervened, resealed the SOA and wiped everyone's memory of the whole incident and returned them back to their homes.  
[Things from here become messy and complicated but will do my best (pls do get the books)].
- Because SOA was broken in two... anyone trying to ascend thru it would become soul fragmented.
- **Akhenaton** took this warning as some sort of trick/conspiracy against him and the Annu. So he did not listen and proceeded to ascend people thru.
- **Sabatoth** found this out and thought the same that must be something funny going on... if he can do it... so can I... and so proceeded to send souls thru not realizing their fate.
- Elohim intervened again... deactivated the rods/staff and sealed off the halls of amenti.
- From here conspiracy brewed to assassinate Akhenaton by his uncle (younger bro of Amenophis-III) and his 1<sup>st</sup> wife Nefereti.
- Ankhi (4<sup>th</sup> wife) and 2yr old son were 1<sup>st</sup> assassinated and then in 1353BC Akhenaton the same.
- Smenkhare took throne, Sabatoth was imprisoned and then executed in 1344BC.
- Sabatoth left behind a son to wife Ihopetohelep. Child was named **Tutankhaton**.
- Tutankhaton married Ankhesenpaaton (3<sup>rd</sup> daughter of Akhenaton)
- Smenkhare was assassinated and Tutankhaton took the throne.
- To please the Serres priesthood his name was changed to **Tutankhamon**. He became a puppet to Haremhab who was starting to favour the Serres-Egyptians and moved away from the Keepers of the Blue-Flame.
- **Tutankhamon** resisted this, but at age 17 was poisoned.
- **Aya** an old councilor priest and friend of Haremhab was appointed to the throne.
- After Aya died, **Haremhab** appointed himself and went about destroying any evidence of his affiliations with the blue-flame keepers and the Aton movement.
- Guardianship of the Arc of Cov was now transferred to the Hibiru Cloister races.
- Due to Akhenatons big fiasco, there was major rifts/divisions among the ranks of the Elohim HU-3, the Sirian Council of HU-2 and the Ra Confederacy.
- Elohim abandoned their attention to the human race (as thought we were losers) save the Annu-Melchizedek and Hebrew peoples.
- From here things get more messy.
- Elohim decided the only way to ensure pure genetic breeding was to become pro-male dominated, thus controlling the women for breeding purposes. (how nice)
- Finally an appeal was made to the RA confederacy.
- 1240BC - The **Azurites** and the **Elohim** established the Essene B/hood.
- Again the Elohim took things into their own hands with various interbreeding agendas.
- Due to this, the priests of Ur decided to disassociate themselves from the main essene b/hood, save a few select essene families.
- 1979BC - An ET **Nephilim** from the 2<sup>nd</sup> seeding was brought to earth, his name **Melchizedek**, King of Salem (later **Salem** became JeruSalem).

- Melchizedek and Hebrew Essenes were known as the TEMPLAR-MELCHIZEDEK.
- The other Essenes who worked with the Priests of Ur and Azurite council were known as the BLUE FLAME MELCHIZEDEK.
- In order to re-align the SOA and re-unite the Essene factions a 12-D level Avatar was brought in.
- 12 BC - this 12D avatar was born outside of Bethlehem. Mother was Jeudi and father was Joehius, both descendants of the house of Solomon. He was taken into custody by the priests of Ur.
- This child's soul essence was born of HU-4 avatar Sananda. Child's name was **Jesheua-Melchizedek** (Jesheua-12)
- 7 BC - The Elohim decided to bring in a 9-level avatar, this child was named **Jeshewua-9** and parents were Mary/Joseph as per bible.
- **Jeshewua-9** and mother Mary were born of ET Nephilim conception. This ET connection was covered up as the immaculate conception as did not want people to know of ET intervention.
- In the bible the lives of these two avatars became consolidated as one Jesus.
- Thru the birth of Jesheua-12 the Hebrew and Melchizedek morph-field of **Alcyone** was re-integrated. The SOA was repaired and the thus becoming known as the saviour of the races.
- At age 20 (8 AD) after studying in Persia and India was taken to Giza by priests of Ur. Here he assisted many groups to ascend thru the Halls of Amenti.
- From here the BLUE FLAME MELCHIZEDEK Essenes as well as the Melchizedek and Hibiru Cloisters were appointed by the Azurites of Ra to share guardianship over the **Arc of the Covenant**.
- It was these groups chosen in 1972 AD to receive full 12 DNA alignment by the time-traveling hybrid Zionite race.
- This 12 DNA silicate matrix is randomly nowadays distributed thru-out all races. The greatest concentration can be found in Hebrew, Melchizedek, Aryan, East Indian and Tibet.
- During Jesheua-12, 8 AD to 21 AD period, Jeshewua-9 became popular among the TEMPLAR MELCHIZEDEKS who were not aware nor interested in Jesheua-12.
- Jeshewua-9 had travelled throughout Nepal, Greece, Syria, Persia and Tibet.
- Jesheua-12's teaching were more eastern and became hidden/secret mystery school within Egypt Giza.
- Jeshewua-9's teachings became more well known and thus more persecution from Roman influence and also from within his own Templar-Melchizedek's.
- At age 32 (25 AD) **Jeshewua-9** with his wife Mary Magdalene and their 3-children exiled to France.
- Another man by the name of **Arihabi** (Hebrew-Annu-Melchi) was led by Elohim thru visions to believe he was Jeshewua-9... we all know the rest, crucifixion and all.  
[anyone seen the movie, *the last temptation of christ*]
- The resurrection of the body of christ was a **Holographic insert** by the Elohim. [Lysa Royal as well as Seth-Jane Roberts had stated this yonks ago]
- Arihabi was brought back to life although not an avatar by the Elohim in return for his services for diverting attention away from Jeshewua-9. After this he spent the remaining 30yrs of his life in India.
- Jeshewua-9 and Templar Melchizedeks became primary foundations for Jewish and Christian Faiths.
- 6-Women of various races were chosen to carry **Jesheua-12** seed to perpetuate the 12-strand DNA.

- The descendants of these children were spread out amongst **French Aristocrats**, other with in **Celtic, Egyptian** and **African** lines.
- Of the 6 children birthed, 5 survived to bring forth 12-DNA lineage. One line now resides in the USA.
- Jeshewua-9 and his 3-children prospered also...
- **J-9** went to Tibet and with the help of the Elohim he ascended out of Matter in 47 AD to HU-3. This actually required 10-DNA but due to Elohim assistance was allowed for J-9.
- **J-12** ascended earth thru Arc of Covenant at age 39 in 27AD.
- Both J-12 and J-9's teachings have been corrupted, twisted to suit those in need of power etc...
- It was J-12 that restored the Hebrew, but did not get the credit.
- Due to **J-12** and **J-9** efforts all races have been restored in the **SOA** and the first wave mass ascension of 2017 AD is back on schedule.
- Detailed information about **Jeshewua12** and **9** [HERE](#)

## 7. AMENTI-7...

- Energetic imprint of **DNA** is carried within the personal morphogenetic field, thus making it important to pay attention to the frequency fields contained within the physical DNA.
- Human body was designed to be immortal. To break the death/rebirth cycle, to transcend and transmute a physical body above HU-1 an identity must possess a 5<sup>th</sup> level consciousness / have fully assembled the 5<sup>th</sup> DNA strand.
- 6<sup>th</sup> Cloister Melchizedek race hold the 5<sup>th</sup> DNA strand.
- The more souls that can assemble the 5<sup>th</sup> DNA strand, the quicker the earth grid begins transmitting 5-D frequencies into the bio energetic fields of the planet.
- Pollution and natural environment abuse makes it hard for a soul essence to sustain hi-frequency on this planet and for the **S.O.A** to be held in the earth core.
- At certain points (twice) within the 26556 year cycle the grid reaches a vibration high enough to allow 5-D frequency infusion. At these points, the earth can accommodate hi-freq souls.
- As explained before the 26556 yr cycle is broken up into 6x 4426 yr cycles. The two points where the earth reaches high enough rate is at the half-way points of the 1<sup>st</sup>-4426 yr cycle and the last -4426yr cycle.
- At these points there is a 5-yr transition period where Earth and Tara morph fields merge. During this period certain anomalies occur such as double-moon, prolonged periods of darkness and light. Also electric/magnetic devices may have difficulty functioning.  
[note: this is interesting as St.Germain (Azena) mentioned back in 1988 that there would be a point in time where the earth's magnetic fields would reverse causing all our electronic devices not to function and that we would have to reverse the polarities on our devices to make them work. He also mentioned that we would know we are getting close to what he termed ascension point when planes would start falling out of the sky and that it would become so bad that all plane flights would become grounded. When asked for a time-frame, he said that future events were fluid but he put his finger on 10yrs as of then (1998-99)].
- At the halfway-point of this cycle all harmonic time cycles synchronize thru all 5-HU opening up a time-warp-portal all the way from Metagalactic core D-8 down to HU-1 where a holographic Beam of energy that feeds and sustains all dimensional systems. This beam enters our solar system thru the core (blackhole) of our sun.

- **Alcyone**, central sun of [Pleiadian system](#) is the primary sun of our Solar System making our system a Binary Star/Sun system. Our sun is the 8<sup>th</sup> star of the Pleiadian System  
[note: it has been stated by many scientific thoughts that intelligent life exists where there are binary star/sun= systems.]
- 5 yrs prior and after the half-way point, the 5<sup>th</sup> DNA imprint is made available to all giving everyone the opportunity to ascend to **Tara**. Those who can assemble the 5<sup>th</sup> DNA strand can take their physical bodies with them to Tara. Those who can only assemble 4<sup>th</sup> DNA strand may choose to die (not suicide) eg disasters etc... so they do not have to incarnate again and can go to next level as a soul essence. Those who can not assemble will remain stuck in a re-incarnation pattern until the next opportunity 2213 years later.
- Ascension cycle began 2194 YA (196 BC). Half-way point is **2017AD**.
- In 1906 an asteroid was heading towards earth, the azurite council, Elohim and Ra allowed permission for non-direct intervention. The asteroid was broken up by the guardians, only some fragments entered earth atmosphere  
[note: maybe [Tunguska](#)-Russia].
- 2<sup>nd</sup> time this occurred was in 1982, again it was broken up.
- In 1926 **Zeta/Zephilium** from [planet Apaxein-Lau](#) began interacting with certain factions of several earth govts.
- Several projects by **Zeta/Draco** were intent on destroying earth's grid vibration rate to stop us from evolving ascending. The Zeta were involved with Atlantis and for a time with colonization of Mars.
- Zeta setup a frequency fence in 1748. This fence blocks dream/astral/OOB recall. In 1986, 8% of earth population re-aligned their 4<sup>th</sup> DNA strand thus further breaking up the Zeta frequency fence which is meant to keep us at 3<sup>rd</sup> DNA strand level. Since then the zeta/draco are getting desperate to stop us/earth from evolving.
- In 1943 the zeta offered the US. Navy a technology to make objects appear invisible ([Philadelphia Experiment](#).) The Zeta had an ulterior motive. They knew that a manufactured merkaba field would disrupt earth's natural merkaba fields causing a rip in space-time. Thru this tear/hole the zeta brought in undetected their ships from which they fired EM pulses at the Sun, disrupting the merkaba field of the Sun causing them to reverse becoming electrical rather than magnetic.
- This caused the sun to behave abnormally (massive solar winds) between the years 1949-1972 and if the guardians had not intervened there would have been a major polar shift in the 70's/80's.
- The goal of the **Zeta** was to misalign the grids to enforce a frequency fence to stop earth/humans from ascending. In order for us to ascend, the S.O.A. had to be in place by 1/1/1988 and activated by 2000AD.
- In the early 70's the guardians placed a 11:11/12:12 frequency fence to stabilize the damage caused by the zeta. This freq-fence began to lift on 11<sup>th</sup> Jan 1992.
- By 1982-1984 most zeta/draco gave up and made treaties/agreements with the guardian races except for a few resistance factions who still desired to control/own earth. The agreement included re-location of all zeta/draco hybrids to a D-4 planetary system and dismantling of their freq-fence.
- The Primary zeta that refused to give up were **Zeta Greys** from the star Rigel (Orion system), known as the **Rigelians** or **Futchzi**. This group caused another major disruption via the [Montauk project](#).
- Abductions continued to happen (symptoms =3D babies born prior 7months gestation period), in which the guardians would locate, re-abduct to disable the zeta/draco genetic codes.

- The Guardians have setup a bridge-zone project (which the zeta/draco resistance are aware of) to further protect earth from any more disruptions.

Before continuing on to part-8 re: *the bridge-zone project*, some info regarding the **mechanics of merkaba fields** wouldn't go astray.

- All planetary spheres contain a set of counter-rotating electro-magnetic fields.
- eg. D-1 contains 12-base-tone frequency spirals/patterns which are magnetic and rotate anti-clockwise.
- Also is contain and electrical spiral pattern clockwise which has 12-base-overtone frequencies.
- The two spiral energy fields forms a star-tetrahedron known as a **merkaba-field**.
  - Earth's D-1 Merkaba Field resides within earth's core as a tiny crystal encased in elemental iron which grounds morphogenetic field in HU-1.
  - D-2 Merkaba surrounds the D-1 merkaba which hold the morph imprint.
  - D-3 merkaba is 444,000 miles in space which holds the atmosphere.
  - D-4 merkaba is a crystal encased in gold located within a blackhole in the centre of the sun.
  - D-5 merkaba surrounds the D-4 sun.
  - Metagalactic merkaba field is constructed of 15 inverted anti-clockwise and 15 upright clockwise electrical fields.

- The merkaba fields holographically create the perceptual/experiential illusions of matter, space, time thru refraction of energy particles.
- Movement of particles is an illusion when consciousness views itself thru layered prisms of multi-dimensional order.
- All dimensions exist in the same space but operate differently due to particle pulse rates created by degrees of angular rotation.
- One universe =3D 15-dimensions =3D 5-harmonic-universes.
- One harmonic universe =3D 3-dimensions.
- There are 90-degree opposing shifts per dimension.
- Between every harmonic-universe there is a 45degree opposing shift. eg. D1,D2,D3 =3D HU-1
- +90-90+90-45 degrees =3D a shift of +45degrees

**[Note:** this is very interesting as [Bruce Cathie discovered an antenna from photographs back in the 60's from a ship "etaltin"](#) of an antenna placed to deep under the ocean for any technology of the time to have put it there.

He used this antenna grid location to further map the energy grid. But what I find interesting is that this antenna was made up off 6-crossbars... with the angle between the crossbars being 15degrees!!... may not be related but the above info just caused me to flash-back to this [Bruce Cathie](#) bit... 6 x 15 =3D 90degrees]

Between one harmonic-universe and the next the 45 degree reverse angular rotation of spin which creates a void/magnetic repulsion zone which separates the reality fields (to us appears like never ending space/galaxies.)

**[Note:** maybe then this HU-1 universe never ends as far as distance/physical boundaries and the only way to the next Universe is thru frequency shift/ascension]

## 8. AMENTI-8...

- Guardian's original plan was to send transmissions via the artificial D4 christ consciousness grid to raise the earth vibration.
- Earth vibration would rise in:

- Oct-1986 - 1<sup>st</sup> spark the Arc of the Covenant
  - 1988 - SOA would complete 14 month descent
  - June-1998 - 2<sup>nd</sup> spark of the A.C beginning 12yr descent of the Blue Flame.
  - 2004 - Re-align earth grid, 4<sup>th</sup> vortex heart chakra at Giza with the Alcyone Holographic Beam.
  - **2012 - Open the Halls of Amenti.**
- Between 1988 and 2017 Earth's 7-natural seals / primary vortex points would open as the dimensional morphogenetic fields and stellar spirals blended with each other.
- Due to 1943 [Philadelphia Experiment](#) by the Zeta, and the imposed 11:11/12:12 frequency fences of 1972, which had to be lifted by no later than Jan 1996.
- Once the SOA was opened, if the D4 frequency could not enter earth's core by Jan 2000, the morphogenetic fields of **Tara** which are stored at the centre of our sun would explode, taking out with it the 10-planets in this solar system, but also setting up a chain reaction in the pleiadian star system of which our Sun is a part of.
- From here it gets tricky.
- The **Zeta/Draco** implemented a plan to re-setup their frequency fence/Zeal Seal in 2003. The main purpose of this is to keep us under and subdued and not make our ascension progression.
- What to do? If things were not handled correctly, earth's population would be dwindled by mass earth changes between 2012-2017.
- Another option was to stop the SOA from activating thus trapping humanity in HU-1/3D for another 26556years before they could attempt ascending again.
- A confrontation between the guardians and the zeta/draco would destroy the earth and surrounding planets from the wages of war. So confrontation was not the answer.
- In any case if the ascension plans were aborted or sabotaged and earth came under draco/zeta control... earth would still meet an untimely destruction by 2976AD due to abuse etc by Draco/Zeta.
- The solution was the [bridge-zone project \(BZP\)](#)
- In a nutshell, without getting too technical and into the mechanics of it, the BZP was this.
- Since the draco/zeta could not be moved out of the way, the guardians would move earth in it's totality out of the way, out of the HU-1 time cycle.
- This would have naturally occurred in 4230AD but now had to be forced ahead of schedule for the year 2017AD.
- The zeta had made calculations from the 1943 [Philadelphia Experiment](#), of how to inject EM pulses into the earth grid to setup their frequency fence.
- The guardians by increasing the merkaba field frequencies from HU1/D3 to 3.5 would make the zeta/draco calculations useless. Since their Em pulse would not reach the new earth grid speed, they would not have time to re-calculate. [I wonder if [HAARP](#) is zeta/draco experiment, in an attempt to recalculate as they know what the guardians BZP is]
- To be able to shift to the **BZ (bridge zone)** the population would have to assemble 4.5 strands of DNA. 8% of the population would need 5-strands and 144,000 need 6-strand DNA.
- This time-shifting of planets procedure is very complex and requires full direct intervention and thus full approval and rarely ever implemented. Normally people and planets are left alone to evolve according to the choices they make. BUT where there are consequences involving numerous planets, star systems, intervention is required.

- EARTH IS IN A STATE OF POTENTIAL CRISIS WHILE THE MAJORITY REMAIN ASLEEP, STUCK IN THEIR WAY AND REFUSE TO WAKEUP TIME CYCLE MECHANICS  
[note: this little bit is pretty important especially to those who are into manifesting or changing their lives etc.. but first will get the maths out of the way]
- Linear time is an illusion created through the pulsation rate of particles
  - 4426years =3D one time continuum
  - 26556years =3D one harmonic universe cycle
  - $4426 \times 6 = 3D\ 26556$
  - Each dimension =3D 2x time continuum =3D 8852years of time
  - Out of the 6 x 4426 time cycles, 4 are forward moving and 2 are counter rotating tracks of time.
  - One time continuum =3D a 45degree shift on angular rotation.
  - One dimension =3D 2x time-continuum =3D 2x 45deg =3D 90deg.
  - One HU =3D 90deg shift (90-90+90 =3D 90) Jump from one HU to the next HU =3D 45degshift
  - counter rotating. =3D 90-90+90-45 =3D 45degshift.
- Multiple reality fields take place in the same point in space but remain invisible to each other due to angular rotation of particles.
- Time does not move... Consciousness moves itself thru unified field of the time matrix.
- Re-incarnation is simply a fragmented soul-group/family simultaneously existing/evolving in the six time continuums/cycles.
- A soul identity/group/family incarnates into 6-pairs of male/female soul fragments, one pair per time cycle. These pairs are known as twin-flames, not to be confused with the more romantic soul-mates.
- HU3 OverSoul/Group/Family incarnates 12-fragments into HU2
- Each of these HU2 fragments further incarnates into another 12 fragments into HU1
- So in HU1 you have a 144 soul fragments that belong to one soulgroup/family  
 Consciousness resides in the dimension above it's field of reality perception. We exist in 4D but perceive but our reality focus is 3D and=below
- Your other soul-fragments appear as past incarnations, whilst for those HU2 appear as future incarnations.
- You DNA has within it encoded EM imprints of the other living portions of your soul identity.
- By assembling your DNA, expansion occurs where you tap into other space-time co-ords of other time-cycles and regain more conscious awareness of your soul ID.
- DREAMS REPRESENT PAST/FUTURE THOUGHTS & EXPERIENCES TAKING PLACE IN YOUR OTHER SOUL FRAGMENT REALITY FIELDS WHICH SEEP THRU INTO YOUR PRESENT POINT OF AWARENESS
- Thought patterns from past/other selves if slow/dense pulsating manifest themselves in your cellular structure/DNA manifest program. This is known as Karmic imprint.
- You can change this program by going back/forward to re-design past undesired events.
- Thoughts held at one dimension become programmed into the corresponding DNA/Cellular memory/Body Cells.
- Increasing frequency infusion into DNA gives off illusion of the passing of time

- DNA serves as a reality projector of data stored in cellular memory into physical manifest.
- Reprogram past events to shift thing in the present-now.
- Use the chakra system to accelerate DNA strand assembly. Get to know your bodies and systems with-in and understand how they work, as you do this you will master better control of your life manifest and DNA assembly.
- First you must learn to de-manifest skills before manifest skills as if not properly controlled can unleash chaos in ones present moment a you release slow-pulsating cellular karmic blocks.

[**Anna Hayes** in *Secrets of Amenti* provides an in-depth 6-7 pages exercise to learn these manifest/de-manifest skills correctly, moving forward/back etc. There are also other exercises for other things I will get to later. I highly recommend if interested that [you buy the book\(s\)](#)... as I would have to verbatim type out word for word the exercise for it to be of any use to anyone. Anna has given expressed permission to make study notes, and i do not wish to breach that trust by copying verbatim chunks out of the book. The books are not that expensive, especially if you are in America. So if this material is of any interest to you, it would behoove you to buy the books. pls see top of this document]

## 9. AMENTI-9...

- The **Bridge Zone Project** will accelerate earth to a midpoint between D3 & D4. Particle spin will be shifted by 22.5 degrees. In order for the **BZP** to be a success 8% of the earth's population have to assemble the 5<sup>th</sup> DNA= strand.
- If earth can not raise it's frequency high enough, it will not make the BridgeZone and by 2004 the Draco/Zeta freq-fence (matrix) will be in place... if this happens, parts of the earth grid will drop-speed/freq and start to fragment.... massive earth changes/movements..
- Argartha is located half-way in a freq zone between earth and earth's double in the parallel universe (antiparticle earth)...antiparticle earth vibrates one-dimension higher than particle earth..
  - Earth D2 frequency =3D parallel Earth D1 frequency.
  - Earth D3 freq =3D par Earth D2
  - Earth D4 freq =3D par Earth D3
- Between D3 and D4 is a 45 degree angular rotation of particle spin which is known as the repulsion zone which gives the illusion of never ending space between star systems..
- All things perceived outside of yourself, including earth etc , exist at the centre of the sun, at varying rates of pulsation..
- Due to BZP, earth's freq will be raised one dimension during 2012-2017, then brought back down half-dimension, merging earth with Argartha.....so earth will become Argartha...
- It is critical that the mass humans reach 4.5 level by 2012, if not, no one will make it to the BZ and the **Halls of Amenti** will not open..
- If the above scenario happens, the guardians will rescue those who have assemble or part assembled their 5<sup>th</sup> DNA strand...guardians can not transport those, who have not assembled, their 5<sup>th</sup> DNA strand as they would not be able to withstand the high-frequency and would die..
- Those who have assembled only part of the 5<sup>th</sup> DNA strand, can not pass thru the Halls of Amenti in any case.....they will be guided to transport locations upon inter-dimensional craft.

- Those who have managed to assemble part of their 5<sup>th</sup> DNA, but have been hindered by birth defects, accidents, illnesses and/or ET manipulation, will have their consciousness moved to a clone body/replica.
- The **Draco/Zeta** are planning to stage a mass landing in 2001, pretending to be the guardian group. The guardian group will not land at all... no mass televised/media landings what so ever.. this is their only way to protect their mission, so as to not get caught up in any dis-info/bag guys syndrome... yes they will eventually land.... but not until earth is back to it's true self and no longer under any manipulation by covert groups/ET...  
NOTE: if the mass landing **does not occur**, it means that the draco/zeta/interior government have failed to get the freq-fence up.... and will continue to subdue/hide the truth and dis-info... anti ET/UFO agenda etc.... to make the masses turn away from UFO/ET and the like etc..
- Earth was measured in 1998 and looked to be on schedule and promise inf for the BZP.
- As earth approaches **2012**, subtle divisions will start to appear on earth between hi/lo-freq groups..... dark/light forces..... will occur around the earth/chakra vortices. Small scale wars will break out... motivated by the Anunnaki resistance who enter orbit in D4 in 1997. They do not work with the Zeta/Draco.... they only simply wish to purge earth and the universe of humans who they regard as a cosmic virus.... they will not directly intervene, interfere, as they would suffer great punishment by the Sirian Anunnaki Council.
  - 1. Painted Desert, Arizona USA
  - 2. Jerusalem, Israel
  - 3. Himalayan Mountains, Asia
  - 4. Giza, Egypt
  - 5. Machu Picchu, Peru
  - 6. Caucasus Mountains, USSR
  - 7. Andes Mountains, South America
- these **portals** open and close at different times..... the above are in chronological order of open/shut times..
- They are currently attempting to decode the D4 protective frequency seal. So they can enter into D3.... if they do..... the **andromedans** will not be able to hold them back and they will need to rely on lightworkers to balance/protect the portals...
- Many **religious organizations** will be used by zeta/draco as dis-info movement. Also much distraction tactics will be employed to divert the masses from the true issues at hand...eg war. economic, famine etc and fear bases crisis to keep the masses struggling and subdued...
- For those that make it to the **BZ**... during **2017** will experience a 3-day period of tension/sensation of atmospheric pressure.... also will appear to have a moon with two halos ..... known as night of the two moons...

## 10. AMENTI-10...

- 1988-2017, Earths 7 Primary chakras/vortices will will open as 6-stellar spirals align with the earth's merkaba fields.
- 1/1/2000, planetary ascension into D-4 time cycle begins.
- Between 1992-5/5/2012, six silent avatars will be born.
- 1999-2017, 150,000 Indigo children will birth, to carry activated 6<sup>th</sup> DNA Strand.
- 7x Dimensional Merkaba fields would open in HU-1 (Earth), HU-2 (Tara), HU-3 (Gaia) as they become aligned with the holographic beam for 3-days in 2017.
- Sept 17/2001 - HOR in Giza would begin opening.
- May 5/2012 - HOR Fully activated.

- Dec 21/2012 - HOR begins to transmit data thru the earth's grid allowing inter-dimensional memory to become available to the populace.
- Anunnaki Resistance are currently manipulating the populace thru the primary vortex in Jerusalem and one of the secondary vortex in Manhattan, of which they have decoded the access codes.
- Indigo Children are D-6 souls embodied, (6-D freq = 3D indigo colour). They carry activated 5<sup>th</sup> strand DNA and can activate 6<sup>th</sup> strand.
- **Indigo children** are also known as sirian-blues. They come from the 7<sup>th</sup> root race "Evanjhechi" and their cloister race Yunaseti, collectively known as the Paradisians.
- Stellar Spiral Alignments/Activations.
  - D4 - Solar (Blue Wave) - 5/5/2000 to June/2004. Solar Spiral aligns with Earth's Merkaba Field.
  - D5 - **Pleiadian** (Violet) - 6/2004 to 6/2008. **Alcyone** aligns with Solar MF.
  - D6 - Sirian (Gold) - 6/2008 to 1/1/2012. Sirian aligns with Alcyone MF.
  - D7 - Arcturian (Silver) - 2017 day1. Arcturian aligns with Sirian.
  - D8 - Orion (Blue-Black) - 2017 day2. Meta-Galactic core aligns with Arcturus.
  - D9 - Andromeda (Silver-Black) - 2017 day 3. Galactic Core aligns with Orion.
- Jan1/2000 - Earth 4<sup>th</sup> vortex opens at Giza.
- May5/2000 - D4 spiral aligns with earth D1 - Iron Core allowing multi-Dimensional identities available to the masses.
- Sept17/2001 - Giza pyramid and Alcyone alignment complete. This will open the HOR beneath the sphinx. This will allow the planetary akashic records to be available to those who can tap into the hi-freq.
- 2001 - Draco/Zeta will stage a public landing.
- Aug12/2003 - Draco/Zeta trying to get the interior govt to activate on experiment along the lines of the 1943 PE and the 1983 Montauk Proj.
- Spring/2004 - Draco/Zeta will begin EM pulses thru the grid, which will be hard to detect and will pump thru the electric grid and into all appliances that are powered of the electricity grid. Also inc radio and TV which they will utilize light to brainwash. An organic compound will be put into the water which will stop the immune system from reacting/detecting to the EM pulses. (the human immune system is capable of responding to EM fields and changes to EM fields). [this is along the lines of "the pleadians" channeled by Barbara Marciniak]
- By 2006 they will begin holographic inserts. [anyone seen the matrix]

## 11. AMENTI-11... Jeff Rense (Sightings) Interview

- Fetal/Soul Integration does not occur at conception. Before it can the embryo has to ramp up in speed/frequency/vibration before the consciousness soul can embody it, otherwise it would destroy the embryo.
- Fetal integration occurs approx after 33-52 days. Most do not occur before 52 days.
- If integration has begun, and the fetus is aborted, problems on many levels occur due to the consciousness having to step down in frequency to embody the fetus, and when aborted it can not raise its frequency once stepped down unless thru a physical body .... in general it gets trapped in mother bio-energetic field, drains energy and other problems thru the mother's life....
- **Greys** are worker class, the **Zephelium** are the head of the group.
- They've been here from the onset of our evolution. We've been here for 500+million years.

- Our gene code was sabotaged, by [Anunnaki](#), [Zeta](#) and [Draco](#). They are frightened of the human potential. Within in us, in **our DNA in dormant form**, is the silicate matrix, highest gene code created.
- If fully actualized, we would become embodied multi-dimensional/functional beings, something which they can not do.
- We are like the crown jewels of those that originally created us. But since ...our DNA has been hacked apart.
- Corungara, Nephidin, [Nephilim](#), Draco on a planet [Nibiru](#), used us as slaves, changed our genetics.
- Cro-magnon, Neanderthal came after the original (us). Not before us, as [Darwin](#) evolution has it. They were a mutated/experiment species.
- **Nibiru** has a reverse orbit, path is between **Sirius** and **our milky-way** system, its orbit is 3600 yrs. There is a plot going on... the planet that is coming back is not Nibiru which is not due back for another 1000+ yrs.... the planet coming back is a piece of hardware camouflaged as a planet.
- USA govt had contact with ET (bad guys) since 1930's... there was a deal... they provided technology of which one was the atomic bomb.
- Many doom and gloom ET's expecting pole-shift in approx 2003. The guardians say that it does not have to happen. We are entering stellar star gate cycles, these pole-shifts can happen, but not necessary.
- The last stellar star gate activation was 210-216,000 YA.
- When [stargates](#) open, it allows ET's to easily access the planet. Battles for stargates occur as who controls them, controls evolutions. In the last cycle, the negatives took control and changed/hid the truth from us.
- The first ET's to make themselves public, are the bad guys making themselves to be the good guys.  
Original religious teachings were very good/educational/spiritual but got corrupted along the way.
- 400,000 ET groups visiting, different agenda's / interest.
- Interest in earth is due to human silicate DNA matrix as well as a stargate which sits at the centre of our planet.
- Our genetic code is limited/programmed to only view time as linear.
- Our morphogenetic fields (templates) are created from sound/light.
- Pyramids were built via utilizing sound-harmonics.
- Sound is key to time-travel.
- Stargate/ascension cycles commence 1/1/2000 (opening of the seven seals)
- Guardians (higher dimensional beings use) time is calculated from rising and falling of cycles
- June-17 2000, timeshift begins via [HAARP](#) and [Montauk Project](#) the earth grid is being de-stabilized by covert ET/governments.
- geo-areas/groups...hybrids since last stargate cycle have been here....
- **Anuhazi** (founders of sirian/lyrian race)... Anunnaki are a limited form... they lost some DNA code and lost access to higher dimensions.....
- Human lineage is of the Melchizedek cosmic family strain. Melchizedek is a **tonal signature**.
- [Reptilians](#) (avatar level, associated with Nibiru)..... live in draconian matrix which is a higher dimension of existence which we can not see. They do **shapeshift** via taking control of a person from the 4<sup>th</sup> level, push aside the personality. Once they have done this they can begin to shapeshift.  
Note: just because a being exists in a higher dimension/frequency than us..... does not mean they are good, they can be negative.
- [Morphogenetic fields](#) are the scalar grids that hold our consciousness in time/space. Learn to understand master these fields / chakra systems.
- Humans have part reptilian genetic DNA codes.

- Original re-incarnation plan when our DNA was fully active was to do 24x re-incarnations. But due to our DNA been corrupted/mutated, **we've been stuck re-incarnating hundreds of thousands of times.**

## 12. AMENTI-12... What Anna Hayes and the Guardians are all about

Below is an outline of what **Anna** and the **Guardians** cover. If you have the opportunity to attend any of Anna's workshops or obtain any of the information, do make an effort. What is presented is unique and in depth and you won't come across it much anywhere else.

- The original human imprint was indeed based upon 12 strands, not 10; the 10-strand mechanics apply to the [Black Sun Drakonian Matrix](#). In our data the connection between the 15-dimensional morphogenetic field, the dimensional correspondences to the 12-strand pattern and the mechanics by which they fit into the ascension process are clearly demonstrated. As each strand in the 12-strand package activates it progressively merges via fusion and reciprocal fission, adding encoding to the double helix strand. The 12 strands exist in the morphogenetic field and as they active they become layered encodings in the identifiable double helix, but the encodings are composed of multi-dimensional wave spectra that has yet to be identified by modern science. 12 dimensions manifest in the DNA when it is activated.
- The 2000-2017 opening of the "Seven Seals", earth's 7 Primary Vortices (chakras), the phenomenon of the [2000-2017 Stellar Activations Cycle](#) and "Stellar Bridge of Frequency" to ground at Giza on 1/1/2000 and how this new inter-dimensional wave spectra, which has not come to the planet in 210,216 years, will create spontaneous activation of the dormant Silicate Matrix Crystal Gene in the DNA and could possibly create geological issues of tectonic cracking. Presentation geared toward using [Keylontic Morphogenetic Science](#) technique to prepare the body and assist the planet so 2000-2017 does not have to be traumatic.
- Earth grid mechanics and the morphogenetic "shields" (scalar grids) that control the planetary [Ley Lines](#) and [Vortices](#), advanced information on the electro-magnetic formation of [Merkaba Fields](#), creating Merkaba within the bio-energetic field to move through the electro-magnetic changes of the 2000-2017 Stellar Activations Cycle and the bio-energetic reality of the condition called "Christ Consciousness" and the mechanics by which it is achieved.
- Creation Dynamic, the formation of 15-dimensional gestalt identity, the "[lie of karma](#)" and imposition of death, the immortality of the 12-strand Silicate Matrix DNA encoding, the formation of the Illuminati, Drakonian Matrix and their 10-strand "Black Sun" DNA Sub-Strand Matrix, and the Belil Sun and Diamond Sun DNA Sub-Strand Matrices contained within the human gene code. Also the reality of Melchizedek Ultra-terrestrial family lines, their involvement in human seeding on earth, their ancient teachings of "ascension" (cellular transmutation through frequency accretion creating the result of dimensional ascension and transmigration of space-time location).
- Substance of [Partiki, Partika](#) and Particum, Partiki Grids and Crystalline Keylon Codes that serve as the template for matter. (Keylontic Morphogenetic Science) and how this substance is structured within sets of 15-dimensional scales to create the literal multi-dimensional anatomy of the human form and identity. Mechanics of integrating the Multi-dimensional scalar grids of our 15-dimensional anatomy to activate the 12-strand Silicate Matrix in the DNA and begin the process of dimensional ascension through higher identity integration, which progressively creates cellular transmutation and the ability of transmigration.

- Realities of the parallel universes and the anti-particle double. We have also received extensive information on the nature of [the Illuminati](#) and [Drakonian Matrix](#), their stellar and human family lines, and the origins of the “Christ/Anti-Christ Paradigm. All of our work is based upon a comprehensive model of 15-dimensional physics (sets of 15 dimensions, not just 15 dimensions total) and Keylontic Morphogenetic Science. The information is supplied by an interdimensional group of human, Et, Meta-terrestrial and Ultra-terrestrial contacts (who I have encountered physically), based in the year 6520 AD on Tara (time is simultaneous, linear time is a holographic construction).
- Many people think the **Hall of Records** is a *room* filled with ancient books or records, that is located in the Sphinx. It is not a room, it is an **electro-magnetic phenomenon of digital information download** from the higher dimensional fields that “opens” to release the data download into the electro-magnetic fields of earth. Once opened, humans with sufficient [Silicate Matrix DNA activation](#) can transduce the data through their bio-energetic fields for conscious translation. The access point for releasing the electro-magnetic seals (seals work like a computer pass word) is under the [Sphinx](#) and is easily accessed via projection from the King's Chamber in the [Great Pyramid](#). The ancients knew all of this, and used it well.

### 13. The Anunnaki Deception

There has been alot of info flinging back/forth about our beginnings, who made us etc etc and where we are heading/going... As the info is great there can also be alot of misinformation. Nearly where ever you go you will see some info from [Anunnaki/Nephilim sources](#) saying they are our *friends* etc and it was they who originally made us ... etc etc but barely any info from non-Anunnaki sources ...

Also brings up the issue of [Enki](#) ... be it as it may ... that [Enki](#) may have had a lot of input into our genetics, society, our protector from [Enlil](#) as well as teaching us maths, perhaps setting up/messing around with the earth grids and what have you ... the question to ask is ... [did Enki do it for our own good](#) ... or did he have another agenda and what was that agenda ?? .... and did the info he gave us really empowered us or was false to lead us off the path? Just because **Enki** had a biff with his brother **Enlil**, does not mean he was Pro-Human and Enlil against Humans ... might have been just another power struggle and we were pawns caught in the middle.
